OBJECTIVE

A motivated and detail-oriented Computer Science graduate with hands-on experience in software development through academic projects. I am eager to contribute innovative solutions and grow in a dynamic tech environment.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Sept 2021 - April 2025

Vardhaman College of Engineering, Hyderabad, Telangana.

Skills: Python, DevOps, CI/CD, AWS, Linux, Git, Kubernetes, HTML, CSS.

EXPERIENCE

Salesforce | *Internship - Salesforce Developer (Virtual)*

Oct 2023 - Nov 2023

- Developed and customized Salesforce Applications.
- Completed Salesforce Developer Superset skill badge.
- Explored Salesforce Technologies and Apex Programming Language.
- Learned Lightning Web Components (LWC) and API basics.

Wipro | *Project Engineer - DevOps and Python*

March 2026 - Present

- Built and managed automated CI/CD pipelines to streamline application build, testing, and deployment processes.
- Created and managed containerized applications using Docker and deployed them in scalable environments.
- Worked with cloud platforms to provision and manage infrastructure for application deployments.
- Implemented monitoring and alerting systems to track application performance and ensure system reliability.
- Applied DevOps principles to streamline development, deployment, and operational workflows in a project environment.

PROJECTS

DevOps-Based Website Deployment & CI/CD Automation | *Startup Infrastructure Project*

Dec 2024 - May 2025

- Containerized a startup company's website using Docker and deployed it on AWS EC2 with Nginx as the web server.
- Designed and implemented an end-to-end CI/CD pipeline using GitHub Actions for automated application deployment.
- Configured Linux-based cloud infrastructure and automated code delivery from GitHub to the production environment.
- Managed source control, container lifecycle, and deployment workflows to eliminate manual deployment steps.
- **Tech Stack:** AWS EC2, Docker, GitHub Actions, Linux, Git, Nginx, HTML, CSS, JavaScript

Bookmyshow Application | *Cloud Deployment Project*

March 2026

- Designed and implemented a complete automated DevOps workflow from code integration to deployment.
- Implemented code quality checks and validation to ensure reliable builds.
- Automated the application deployment process to reduce manual effort.
- Configured a scalable and reliable deployment environment.
- Set up system monitoring and alerting to track application health and performance.

ACHIEVEMENTS

- Certificate of completion in GitHub Copilot from Microsoft.
- Certification of completion in Python from HackerRank with verified credentials.
- Certified in DevOps Deployment Automation using Terraform, AWS, and Docker from Udemy.
- Winner of Salesforce Career Recharge Program by Future Skills Prime Nasscom.

EXTRA CURRICULAR ACTIVITIES

- Runner-up in Basketball at the Tatva Tournament.
- Passionate about photography, capturing nature and lifestyle moments and sharing them on social media.
- Enjoy traveling and exploring new places, gaining exposure to different cultures and environments.
- Built and experimented with small projects while learning programming and automation.
