OBJECTIVE A motivated and detail-oriented graduate in Computer Science and Engineering, hands-on experience in software development through academic projects. I am eager to contribute innovative solutions and grow in a dynamic tech environment.

EDUCATION *Bachelor of Computer Science and Engineering*, Vardhaman College of Engineering, Shamshabad, Telangana, May 2025.

SKILLS Python, HTML, CSS, SQL, Apex

PROJECTS *DermaNet: Revolutionizing Skin Diagnosis* (December 2024 - April 2025)

Objectives of the project:

- This project represents the performance of the deep learning architecture using advanced techniques like convolutional neural networks and transfer learning.
- It provides real-time insights and preventive care recommendations, enabling users to address skin issues.
- To ensure the ethical use of AI by prioritizing patient privacy, data security, and explainable predictions for building trust.

FinSight – Personal Expense Tracker

(June 2025 - Present)

Objectives of the project:

- This project presents a lightweight and interactive personal expense tracking system with real-time financial insights for users.
- By using Python, data visualization, and Streamlit, it enables users to add, view, and categorize transactions, and visualize expenses in dynamic pie charts.
- Utilized Pandas for data manipulation and automatic calculation of total income, expenses, and balance.

INTERNSHIP *SALESFORCE - Salesforce Developer (Virtual)* (October 2023 - November 2023)

- Developed and customized Salesforce Applications.
- Completed Salesforce Developer Superset skill badge.
- Explored Salesforce Technologies and Apex Programming Language.
- Aware of lightning web component (LWC) and API.

EXTRA-CURRICULAR ACTIVITIES

- Winner of Salesforce Career Recharge Program by Future skills Prime-Nasscom.
- Certificate of completion in Front End Development from Great Learning.
- Certificate of completion in MongoDB coursework covering Atlas, CRUD, Indexes, Transactions, Aggregation, and Data Modeling.
